

# HP Business Inkjet 2300 Series Printers

2300 • 2300n • 2300dtn

The HP Business Inkjet 2300 Series offers cost-effective, high-performance, network-ready color printers that are ideal for small workgroups—the perfect complement for your office-wide networking strategy.

## Cost-effective

- **Low acquisition cost.** Enjoy the professional performance, speed, resolution and paper-handling of the HP Business Inkjet 2300 Series at an affordable price.
- **Low operating cost.<sup>1</sup>** Four separate ink cartridges (1,750 pages per color) and long-life printheads let you replace only the color that runs out, realizing a cost per page<sup>2</sup> of just 8.4 cents color and 2.2 cents black.
- **Robust duty cycle.** Up to 10,000 pages per month, more than enough for small workgroups.
- **Sharing saves, too.** Add an HP Business Inkjet 2300 Series printer to your network, so that everyone can access a color printer when they need it.

## Professional performance

- **Laser-quality speeds.<sup>3</sup>** Up to 9 ppm black and 5 ppm color (26 ppm black and 22 ppm color in fast mode) accelerates productivity throughout the workgroup.
- **Superb color.** Up to 4800 x 1200 optimized dpi<sup>4</sup> on premium HP photo papers delivers the photo quality and clarity you expect from HP products.
- **High memory capacity.** A powerful 256-MHz processor and 64 MB of memory (upgradeable to 320 MB) increase office efficiency by making it possible to quickly print even the most demanding jobs.

- **Two paper trays.** Select the best possible media for each job with less user intervention, such as transparencies in tray 1 and plain paper in tray 2. Enjoy the benefits of duplexing, with an automatic two-sided printing accessory<sup>5</sup> that creates booklets and pamphlets while saving paper.

- **User-friendly display.** A back-lit LCD panel, showing both text and icons, helps users manage print jobs, perform onsite maintenance, set configurations and troubleshoot.

## Network-ready

- **Built to share.** Designed to complement your existing IT environment, the HP Business Inkjet 2300 Series printers network seamlessly across both PC and Macintosh platforms as well as a variety of operating systems including Microsoft® Windows® 95, 98, Me, 2000, XP and NT® 4.0; UNIX® and Linux.<sup>6</sup>
- **Remote management.** The HP embedded web server (EWS) automatically monitors both printer and print job, sending diagnostic information by e-mail to prompt and simplify the ordering of supplies.

# HP Business Inkjet 2300 Series Printers

1. User-friendly LCDs with intuitive icons allow individuals to manage their print jobs and perform onsite maintenance and troubleshooting

2. Black (69 ml) and color (28 ml) replacement cartridges can be changed individually for cost savings

3. 100-sheet output tray

4. 150-sheet input tray

5. 250-sheet second input tray (500-sheet second input tray on the 2300dtn)

Automatic duplexing for paper-saving, two-sided printing (standard on the 2300dtn)

HP Business Inkjet 2300 model shown

**HP Business Inkjet 2300**

- 64 MB RAM
- 256 MHz processor
- 150-sheet input tray and 250-sheet input tray (400-sheet total input capacity)

**HP Business Inkjet 2300n**

- 64 MB RAM
- 256 MHz processor
- 150-sheet input tray and 250-sheet input tray (400-sheet input capacity standard)
- HP Jetdirect 615n Fast Ethernet (10/100Base-TX internal print server)

**HP Business Inkjet 2300dtn**

- 64 MB RAM
- 256 MHz processor
- 150-sheet input tray and 500-sheet input tray (650-sheet input capacity standard)
- HP Jetdirect 615n Fast Ethernet (10/100Base-TX internal print server)
- Automatic duplex unit for two-sided printing

# Not your typical inkjet, the HP Business Inkjet 2300 Series printers reverse all the old assumptions—that ink products are slow, expensive and difficult to share.

Here's how:

## A superb stand-alone workgroup printer

Economy, performance and network-readiness aren't the only benefits of the HP Business Inkjet 2300 Series. With a substantial duty-cycle of 10,000 pages per month, these printers are powerful and versatile enough to serve either as a stand-alone printer for businesses that are just getting started or as a complementary color printer for small businesses that are already up and running and also want the ability to print in color.

For such companies, HP Business Inkjet 2300 Series printers can do just about everything, from printing general text documents to printing colorful marketing presentations.

In doing so, HP Business Inkjet 2300 Series printers put an end to many of the false assumptions about inkjet printers—that they are expensive, slow or difficult to share.

In fact, because these printers offer a duplexer<sup>5</sup> (two-sided printing) and feature separate ink tanks and long-life printheads, operating costs are surprisingly low. The cost per page<sup>2</sup> (8.4 cents for color, 2.2 cents for black) is indeed comparable to entry-level laser printers.

HP Business Inkjet 2300 Series printers are also just as fast at printing color as entry-level color laser printers.

Equally important, HP Business Inkjet 2300 Series printers network seamlessly. Although people often assume that inkjet products are best for desktop use, the HP Business Inkjet 2300 Series printers are specifically designed for sharing. These printers not only establish network connectivity in seconds, they also manage print jobs and maintenance tasks efficiently through your computer, saving you time, effort and hassle.

## A great complementary color product

HP Business Inkjet 2300 Series printers provide a strategic solution for mid-sized businesses that already have one or more printers. This is because of their ability to perfectly complement office-wide deployments by delivering additional capabilities such as color graphics. Now you can add an HP Business Inkjet 2300 Series printer to the network for everyone to use when they need color printing.

Because of their professional networking capabilities, HP Business Inkjet 2300 Series printers can be seamlessly incorporated within your network as easily as your HP LaserJet printer.

Built-in versatility enables the HP Business Inkjet 2300 Series printers to suit a wide variety of deployment strategies. Whether you're waiting to proof a document in advance of final production or completing a full run of an important print job, you'll appreciate the efficiency, economy and ease-of-use of this affordable, network-friendly printing solution.

<sup>1</sup> Based on 5% average ink coverage for each color.

<sup>2</sup> Total cost per U.S. lettersized page with 15% color average or 5% monochrome coverage including toner or ink, replaceable parts, power, paper and average service costs. This information is based on the best information available and is not guaranteed accurate by Hewlett-Packard Company. Actual prices may vary.

<sup>3</sup> The laser-quality speed comparison uses the page-per-minute speeds of the HP Business Inkjet 2300 Series printers against the benchmark of the HP Color LaserJet 4600 at comparable print quality. This comparison is based solely on HP's internal testing.

<sup>4</sup> Up to 4800 optimized dpi color printing on premium photo papers, 1200 x 1200 input dpi.

<sup>5</sup> Automatic duplexer standard on the 2300dn, optional on the 2300 and 2300n.

<sup>6</sup> Standard on the 2300n and 2300dn, optional on the 2300.
