

A brilliant 7-inch color touchscreen
makes map navigation easy with

Seeing the big picture in car navigation just got easier.

Garmin's "big picture" StreetPilot[®] 7200
and 7500. Just touch the screen and go.

You're automatically routed with turn-by-
turn voice prompts that give directions by
speaking the street name. Preloaded City

Navigator[™] NT street maps cover all of

North America. And composite video

input lets you plug in a camcorder or

other device. Add an XM Satellite smart

antenna to get the latest traffic, weather

and audio entertainment*. Or get Traffic

Message Channel (TMC) alerts in select
cities with an optional FM traffic receiver.

To keep you on track in areas where

buildings or tunnels can block GPS

reception, the StreetPilot 7500 adds

gyro-based dead reckoning capabilities**

*U.S. coverage only. Subscriptions required
to activate XM Satellite-linked services.

**Professional installation required
for dead reckoning capabilities.

Moving map features

Storage: Internal solid-state storage comes pre-loaded with City Navigator™ NT for street-level detail and addresses, plus listings of nearby restaurants, hotels, ATMs, etc., throughout the U.S., Canada and Puerto Rico. Approximately 750 MB of internal memory is user-available for supplemental maps, MP3s and audio book media from Audible.com.

Custom POIs: Custom inputs let you add restaurants, safety cameras and other points of interest to the preloaded map. Proximity alerting warns of upcoming custom POIs, such as safety cameras or school zones.

Navigation features

Routes: Automatically calculated with turn-by-turn instructions; up to 50 stored routes; each stored route can contain multiple VIA points, which can be auto-arranged to minimize trip distance; a detour function enables routing around traffic problems or road construction; custom road preference allows user to prioritize choice of back roads or major highways; automatic off-route recal shows how to get back on track if you miss a turn or exit

Voice: Navigation instruction and warnings. Text-to-speech (TTS) capability identifies turns and locations by spoken street name

Waypoints: 2000 with name and graphic symbol; 50 routes

Track log: 2000 track log points

Mileage log: Calculates travel mileage for up to four different trips or legs

Trip computer: Resettable odometer, timers, average and maximum speeds

Travel entertainment

Features: Built-in MP3 player and audio book player (for Audible.com media); supports 150+ digital channels of XM Radio with optional GXM 30 Smart Antenna (XM subscription required); all music or speech files can be output through the user's car audio system via the StreetPilot's integrated FM wireless transmitter or 3.5 mm stereo headphone/line-out jack

GPS performance

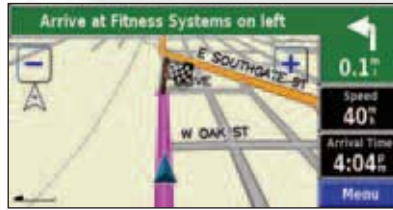

Receiver: WAAS/EGNOS enabled; 12 parallel channel GPS receiver continuously tracks and uses up to 12 satellites to compute and update your position

Acquisition times:
Warm: Approximately 15 seconds
Cold: Approximately 45 seconds
AutoLocate®: Approximately 2 minutes

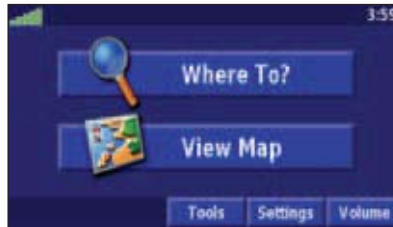

Update rate: 1/second, continuous

GPS Accuracy:
Position: 15 meters (49 feet), 95% typical¹
Velocity: 0.05 meter/sec steady state

GDPS (WAAS) Accuracy:
Position: <3 meters, 95% typical
Velocity: 0.05 meter/sec steady state

Monitor traffic conditions in select metro areas with optional XM satellite or FM TMC receivers

Large 7-inch touchscreen and menu-driven interface ensures simple, intuitive operation

XM Satellite Radio® capability lets you access the latest news and digital audio programming

Optional XM WX™ Satellite Weather service helps you steer clear of hazardous conditions

Interfaces: USB 2.0 full speed device
Antenna: Built-in patch; MCX-type connector for optional external GPS antenna connection

Physical
Size: 7.5"W x 4.5"H x 2.2"D (18.4 x 11.6 x 5.6 cm)
Weight: 1.4 pounds (635 g)
Display: 7" diagonal (17.8 cm); 480 x 234 pixels; bright, automotive-grade color TFT w/automatic dimming backlight and touch screen

Infrared: Remote control, IR port
Photo sensor: Senses lighting conditions for automatic backlight dimming
Temp. range: 5°F to 158°F (-15°C to 70°C)
Data storage: Indefinite; no memory battery required
Map storage: Preloaded internal solid-state storage

Power
Input: 12v DC
Usage: 12w max. @ 13.8v DC

Accessories
Standard: Preloaded internal storage with detailed U.S., Canada and Puerto Rico maps, Quick-release dash mount, Vehicle adapter cable, AC power adapter, USB interface cable, Alphanumeric remote control, Owner's manual, Quick reference guide, DR cable (7500 only)

Optional: GTM™ 10 FM Traffic Receiver, Remote GPS antennas, XM Smart Antenna (GXM 30), Deluxe carrying case, Select MapSource® products

^{*}TMC traffic services available only in select cities where RDS coverage exists. Requires GTM™ 10 FM traffic receiver and subscription fee to enable traffic capability

^{*}Optional XM NavTraffic services available only in select metro areas. Requires GXM 30 Smart Antenna and XM subscription to enable XM Satellite Radio and/or XM NavTraffic capability
