

PIXMA MP830

Office All-In-One

Premium All-In-One Performance for Small and Home Office Productivity.

- Copy and scan 2 sided originals with auto duplex Automatic Document Feeder (ADF)
- Fast printing up to 30 ppm black/ 24 ppm color and a photo lab quality, borderless 4"x 6" photo in approx. 36 seconds
- Super G3 (33.6 Kbps) fax with memory for 100 coded speed dials and up to 250 incoming pages
- Built-in 2 sided printing/copying and second paper tray for convenient paper selections
- Copy, scan and fax convenience with 35 page ADF
- Print up to 9600 x 2400 color dpi with microscopic droplets as small as 1 picoliter using FINE print head technology

A system for long lasting photos.

The Canon ChromaLife100 system combines the PIXMA MP830 Office All-In-One's FINE print head technology and newly developed inks with select Canon Photo Papers, with results rivaling that of many traditional film photos.

A Print-Copy-Scan-Fax powerhouse.

The ultra-versatile PIXMA MP830 Office All-In-One delivers spectacular performance for the home and small office. It produces an amazing print resolution of up to 9600 x 2400 color dpi¹, for superb detail and clarity. To achieve this, Canon Full-photolithography Inkjet Nozzle Engineering (FINE) uses a next-generation 3,584-nozzle print head that ejects precise, consistent droplets as small as 1 picoliter, for smooth, virtually grain-free images. Our ContrastPLUS 5-color ink system—four dye-based inks and a pigment-based black ink—produces true-life photos along with laser-quality text. Plus, a 4" x 6" photo lab quality borderless print takes only about 36 seconds².

With the large 2.5" LCD color viewer and easy control panel, you can evaluate and enhance images from your compatible memory card³ before printing! Or, you can print directly from your PictBridge ready digital camera or DV camcorder. With direct printing, you don't need a computer.

Advanced copying, scanning and faxing.

This high-end Office All-In-One does it all. The auto duplex Automatic Document Feeder (ADF) can read both sides of a 2 sided document, letting you copy or scan a 2 sided original without having to flip it over by hand! The ADF can hold 35 pages of originals at one time, making it much easier to copy, scan or fax multi-page documents. And when combined with the unit's dual paper trays, the ADF gives you the capability for high-capacity copying, even of 2 sided originals. The AE (Auto Exposure) Copy feature automatically optimizes reproduction quality based on the type of original you're duplicating. When scanning, the unit's high-resolution CCD technology enables you to produce exceptional 2400-dpi scans, with vibrant 48-bit color depth. And now, faxing: With the PIXMA MP830 Office All-In-One, you can achieve up to Super G3 fax speed in color and B&W⁴. Plus, the expanded memory lets you store 100 speed dial codes, and receive up to 250 incoming pages.
