## UX-B800SE Broadband Fax

### Broadband Fax • Traditional Fax • Copier • Scanner • Phone

The new Sharp UX-B800SE Broadband Fax was designed with your communication needs in mind. It provides you with voice and fax communication capabilities as well as fax to e-mail without the need of your PC. For small businesses or the traveling salesperson, Sharp's new Broadband Fax solves all your faxing needs.

Never miss important faxes while you are away. With our convenient Fax Forward feature, you can preprogram all your faxes to be sent to your e-mail address while traveling. You will never miss a business opportunity and never have to pay another hotel fax bill again. Best of all, there is no service to sign up for, so no monthly fee.

Need to send an article to your sales staff immediately? The UX-B800SE makes this easy. Just place the article in the 20-page document feeder and set the fax to automatically send to up to 37 stored e-mail addresses. Recipients will receive as an attached PDF or TIFF file directly in their e-mail. You can also manually type in unlimited e-mail addresses to send. Best of all, it comes equipped with a QWERTY keyboard for easy typing capability.

Free faxing at no additional charge! Since the UX-B800SE hooks up to your ISP via cable or DSL modem, no telephone toll charges are applied when you fax to an e-mail address. Of course, the UX-B800 also hooks up to your land line telephone for traditional incoming and outgoing faxing.

#### *Why Fax to Email?*

- *Fax to e-mail*
  - send information to someone who does not own a fax machine
- *Receive faxes directly to e-mail*
  - conveniently receive your faxes via e-mail while traveling
- *File faxes directly into e-mail*

## Broadband Fax

For display purposes the UX-B800SE offers a unique flip chart POP. Designed with a tabbed format, it provides enough area for the advantages of Broadband Fax to be fully explained while not covering up the new design.

Using the Broadband Fax is even easier with its QWERTY keyboard. The layout includes an @ and .com keys to assist in the speedy entry of email addresses and the 2-line LCD screen is angled forward for better viewing. All these convenient features make using your Broadband Fax a breeze.
