Get everything done in colour!

A Colour Laser MFP that lives up to its name: multifunction.

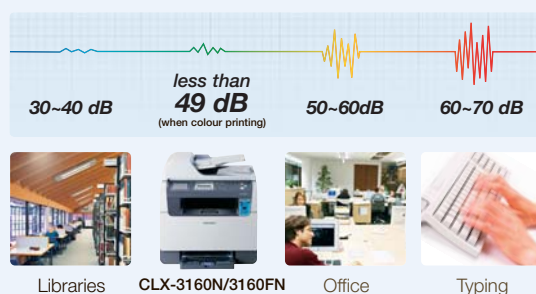

Samsung MFP CLX-3160FN/3160N not only prints, copies, scans, and faxes, it gives you the choice of colour. Capture your life and work in colour with stunning colour printing and copying at 4 ppm colour / 16 ppm black for A4 size paper (4 ppm colour / 17 ppm black for letter size). In addition, realize every colour and detail with enhanced scanning resolution of 4,800 x 4,800 dpi. (Fax available on CLX-3160FN.)

NO-NOIS™ technology creates a serene workplace

Enjoy the peace and quiet even when you print colour

NO-NOIS™ technology prints documents without turning the drum to print every colour. With conventional technology, each turn of the drum creates more noise and vibration as you print. But, NO-NOIS™ (Non-Orbiting Noiseless Optic Imaging System) uses a fixed cartridge system so you can print page after page quietly and with less distraction.

Get high productivity with a space saving design

Now colour laser MFP is available for any size office

The Samsung CLX-3160FN/3160N has been designed to fit any workspace, weighing in at only 20.5 kg (45.1 lbs), and sized at 466 x 429 x 486 mm (18" x 16" x 19"). This space saving design lets you keep the MFP close to your workstation.

USB simplicity creates modern alternatives for printing and scanning

Get Direct Photo Print using PictBridge

Fits your modern digital life by letting you connect your camera or phone directly to the printer.

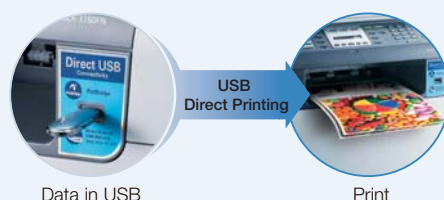

Now print quickly without PC by connecting any PictBridge camera or phone directly to the printer. Just connect the device to Samsung's CLX-3160FN/3160N and use the direct print feature for photo printouts instantly!

Print without PC using USB interface

Connect USB memory to printer and print instantly

Take any documents that are saved on your USB and print directly without a PC. Just insert your USB memory into the USB slot on the CLX-3160 series and print directly (JPEG, BMP, TIFF, and PRN supported).

Scan and save instantly

Scan and save to USB memory without PC.

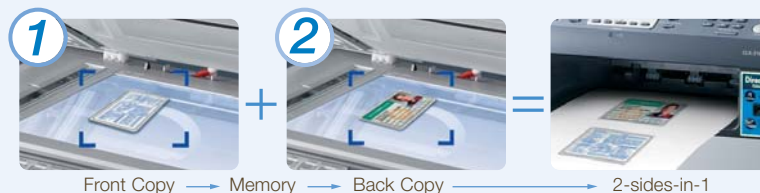

Even when you don't have access to a PC, you can still save what you scanned directly to a USB memory. The USB Direct Scan feature increases flexibility and saves you time.

Copy both sides of ID simply and accurately

Easy 2-step process copies both sides of ID on one sheet.

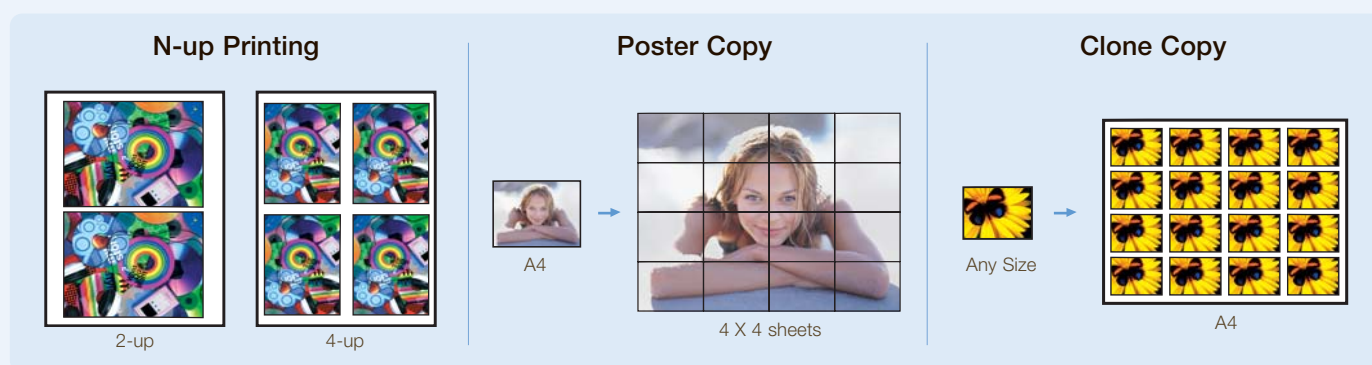

Save time and paper every time you need to copy both sides of an ID card. The ID copy feature easily copies both sides of the card and prints an accurate copy on one piece of paper. Convenient for driver's licenses, ID cards, insurance cards, and more.

Special copy functions enhance your productivity

Print the way you want and create posters, copies and 4-up copy.

Samsung CLX-3160FN/3160N features special copy functions that give you complete freedom and creativity. Print 2 or 4 pages on one piece of paper, saving time and materials. Or, use the Poster Copy feature to enlarge one piece of paper creating a poster of 16 sheets (2 x 2, 3 x 3 and 4 x 4 sheets). The Clone Copy feature produces copies of one image and prints them on one page.

Unique cartridge makes changing toner enjoyable

Easy maintenance and installation make your life easier

The CLX-3160FN/3160N comes equipped with Samsung's innovative toner cartridge design that makes changing toner so easy and saves time. These mini toner cartridges are small enough to fit in your hand which makes them easier to handle than bulky cartridges : open the cover, pop out the old toner, pop in the new toner, and you are all ready to go!

Personal printer secretary is always ready for you

Status pop-up keeps you informed and helps you troubleshoot

The Status Pop-up Feature monitors your printer's status and appears in the system tray to alert you if an error occurs. The Pop-up menu includes Power Save mode, Toner levels, Buy Now, Troubleshooting Guide, Printer Setting and Driver Setting.

- **Toner Level:** Check the toner levels for each colour on the menu.
- **Buy Now:** Click the Buy now menu and easily order toner cartridges online. (applies to limited countries)
- **Troubleshooting Guide:** Use the Troubleshooting Guide to view solutions for error status problems and to understand error messages.
- **Printer Setting:** Click Printer Setting to access Windows Printer Settings menu.
- **Driver Setting:** Configure printer drivers with the Driver Settings menu.
