

## What is Vonage?

Vonage is an all-inclusive home phone service that replaces your current telephone company. By using Voice over Internet Protocol (VOIP) to transmit your phone calls, it allows us to offer you better plans, more features and huge **SAVINGS** from what you are paying right now for phone service.

## What do I need to get Vonage?

1. A broadband Internet Service (i.e. Cable modem or DSL)
2. A credit card with US billing and shipping address
3. Any Vonage phone adapter

Below are three phone adapters currently being offered in-stores. They are the Linksys PAP2, the WRT54GP2 and the RT31P2.

The Linksys PAP2 is a stand-alone phone adapter. This device has 1 Ethernet port & two phone ports, one for line 1 and the other for line 2. This device is

intended for customers that already have a router in their network configuration. This has a MSRP of \$59.99. Currently there is a \$50.00 Vonage mail in rebate. (Expires 2/05)

The Linksys WRT54GP2 is a 3-port wireless 802.11g router as well as a 2-port phone adapter. This device is designed for those who want to set up a wireless network or upgrade from a hardwired network, and wish to save money with Vonage for phone service. This has an MSRP of \$129.99 with a \$50 Vonage mail in rebate.

The Linksys RT31P2 is a 3-port router as well as a 2-port phone adapter. This device has 3 Ethernet ports and 2 phone ports. This device is perfect for a customer without a router in their network configuration. This unit has a MSRP of \$89.99. Currently there is a \$50.00 Vonage mail in rebate.
