[http://www.staples.com/Martha-Stewart-Home-Office-Blair-Desk-Sand-Gray/product_415310] combines the simplicity of a classic Parsons table with features that work seamlessly with today's technology. A power strip featuring three USB ports and two electrical plugs is cleverly concealed by a hinged door at the back of the desk, so your home office equipment will never be without power and cords are kept under control. The desk also has a drop-front center drawer that converts into a shelf for a keyboard or extra workspace.

Drawers accommodate legal or letter-sized files and the cabinet has concealed casters that allow you to move it with ease. It is thoughtfully designed to fit either beside the desk or under it, so this duo is perfect for more compact office spaces.

Available in either Robin's Egg Blue or Buttermilk White, this lamp complements any office setting with a touch of style and function.
